SURVEILLANCE SYSTEMS

## SURVEILLANCE SYSTEMS

Meet **John Dancey**, our master installer and resident video expert. John is a retired police detective for the electronic surveillance unit (ESU) of a nationally recognized state police organization. With over 30 years of experience in the design, consulting, and implementation of video and audio surveillance systems, John's electronic background includes many fields of expertise. His background includes topics such as:

- Having five surveillance designs currently being implemented throughout the United States by law enforcement agencies and private companies.
- Being a testified expert of The New Jersey Superior Court for various cases involving electronic surveillance and organized crime activities.
- Designing covert and overt video/audio retrieval systems, where allowed by Federal and State Law for many companies.
- Performing electronic countermeasures (sweeps) for industrial and private entities to ensure that no illegal audio/video devices are operating within client location.
- Design, installation, and maintenance of camera systems for hundreds of companies throughout Eastern Pennsylvania and New Jersey.

Camera and monitoring systems are truly great tools to assist in property and asset protection. Our expertise ensures that you will receive the best equipment for your specific application and unmatched customer support. We offer the many customized services to meet your needs, such as:

- Camera, Monitor, and DVR Installation
- Audio Surveillance
- Covert & Hidden Surveillance
- Monitoring Services
- Free Education for Self Monitoring
- iPhone and Android Mobile Apps
- 24/7 Tech Support
- 24/7 Repair Service
- 24/7 Alarm Response Service
- Customized Surveillance Solutions
