SECURITY PATROL

## SECURITY PATROL

24/7 security coverage is an essential part of preventing theft and damage of property, products and other valuable parts of a business. We utilize the latest technology which allows better accountability by GPS location and tour points, which are viewable by employer and the customer 24/7. Vehicle & foot patrol as well as random spot checks throughout the site, are a sample of the services we provide in locations such as:

- Malls
- Construction Sites
- Office Buildings
- Warehouses
- Parking Lots
- Retail Locations
- Schools & Colleges
- Hotels
- Sports Complexes
- Corporate Venues
- Religious Institutions
- Distribution Centers

“ Our company recently received threats from a former employee. After multiple recommendations we contacted Omega Protective Services. Within minutes after speaking with Greg, we felt a sense of comfort. The team at Omega was extremely professional. Being on-site at our office daily made our employees and their families feel safer. The threat we received occurred during the holiday season and the team at Omega was also brought in to our corporate holiday party. They were not only professional; they were completely invisible to our guests and did not make anyone feel uncomfortable. Thank you to the entire team at Omega.”

Mike Amadio - Director of Marketing, Excel Micro

“ Omega Protective Services, LLC has been a pleasure to work with! Omega is very reliable. Their security officers always arrive to the job site on time and they are always very professional. I have had many great compliments about Omega Protective and their officers! It shows in their work that they are passionate about what they do and that they always have the client’s best interest at heart! I look forward to working with Omega Protective Services, LLC even more in the future!”

Tiffanni Stanford - Operations/Office Manager, K & M National Security Company
