EVENT TRAFFIC SERVICES

EVENT TRAFFIC SERVICES

We provide teams of professional staff to assist the traffic management of your parade, race, marathon, and other events with services such as:

- Festival parking teams
- Staging roadblocks
- Redirecting non-event traffic around the event
- Directing traffic within the event
- Providing safe walking routes
- Directing parking to utilize space most effectively

“ I utilized Omega’s services for traffic control at the Pottstown Bike Race. These folks were excellent! They were professionally dressed, timely, and did their job well. It is nice to be able to attend to our event and not have to worry about traffic issues. I have every intention of using Omega in 2017.”

Dawn Gulick - Race Co-Director, Pottstown Bike Race

“ Greg and the Omega crew were extremely attentive and professional at the Spuds & Suds event last year. Greg attended many of the pre-event meetings so that he had a good understanding of how the event needs to be managed. Omega’s presence at the event made the Chamber staff, volunteers and patrons feel secure. Greg gave suggestions as to how to make our event run more smoothly- specifically the beer tent. We implemented his suggestions which cut down on wait time for those waiting for beer and wine slushies.

Ample staff were stationed at every traffic light as well as at the 329 bridge which kept traffic flowing smoothly through town. They were very personable and a pleasure to deal with. We appreciate Omega lots! :)

Lauren Spence - Assistant Vice President - Easton, Phillipsburg, and Bath Initiatives
Greater Lehigh Valley Chamber of Commerce
